

Please keep children's faces clean.

Caregiving and education go hand-in-hand.

- Regardless of the reason (messy play, runny nose, recent snack, etc), children's faces should be kept clean.
- Helping a child wash his face (or washing it for a younger child) shows children and their parents that you CARE.
- Teaching children healthy habits (like hygiene) is a required part of our curriculum.

OCFS Regulation 418-1.8 (a) The child day care center must employ or have available staff who will promote the physical, intellectual, social, cultural and emotional well-being of the children.

MSA High Quality Indicator 9.2b Adults model health and safety practices consistent with CFCO standards.
