

# Are you savvy about sun safety?

Please use sunscreen properly and be sure everyone stays hydrated.

- Be sure sunscreen bottles are labeled and stored out of children's reach.
- Sunscreen must be provided by parents & requires written permission. Document each use in the application log.
- Use a fresh pair of disposable gloves to apply each child's sunscreen. Do not share sunscreen.
- Apply sunscreen as the children arrive (not the entire group all at once!).
- Re-apply sunscreen in the afternoon & after water play.
- Make fresh, cold drinking water available all day long.
- Limit sun exposure by alternating play in shaded areas.

OCFS Regulation 418-1.11(j) (11) ...provider may administer over-the-counter topical ointments, including sunscreen lotion and topically applied insect repellent, upon the written instructions of the parent or guardian.

MSA High Quality Indicator 9.1d Health records are complete and current for children and staff.
