

# Summer Camp 2016 Scrapbook Guide

## 2016 Expectations

- Like last year, the program requirement is for each Summer Camp classroom to create a digital scrapbook.
- Each week, at least 1 Picstitch or Scrap It collage should be created and uploaded to the 2016 Summer Camp Scrapbook folder that has been created for you in Google Drive (just be sure to choose your classroom folder before uploading); at minimum, this means that each classroom will have 10 great collages shared by the end of the summer.
- At summer's end, we'll generate a link that you can share with campers and their families.

## Tips and Tricks

- Need to see a demonstration? Click [here](#) to view the **Summer Camp Scrapbook “How To Video.”** This resource is also available in the Bravo! Curriculum Resources Folder on Google Drive within the Technology Folder.
- Include children in the process! Invite them to take pictures of the moments they cherish the most. Then, when it's time to make the collage, invite children in small groups or a large group to help you choose and edit photos, write captions, and add any other décor.
- Don't forget to include pictures of any field trips, ticket stubs, or other memorable mementos.
- As you build your classroom scrapbook, some children may also want to create an individual scrapbook too – this is always OK! You can create child-specific subfolders on GD (First name and last initial only) or provide art materials – check out [this link](#) for some inspiration.

## Additional Ideas

- Involve campers in creating weekly “Photo Booth” props - be sure to have a sign that displays the theme and the date – then capture photos of every camper!
- Consider engaging the Book Club in special Scrapbook tasks – photographing, pic-stitching, adding text, editing, etc. are all important jobs.
- Experiment with adding a few video clips to your GD folder too! To add to the fun, campers can interview one another or do a “Week in Review” report.
- Think outside the box to supplement this idea – why not dedicate one full bulletin board as a “scrapbook” too, for campers to add drawings, photos, jokes, and autographs?
