Tuberculosis T	argeted Tes	ting Guidelines for	Health Ca	re Providers					

Tuberculosis Infection Risk:

Review the following risks and administer a Mantoux TB skin test if child is in one or more categories. The TB test is administered confidentially as part of the health examination. Do not record administration of any TB test or related information on this form.

- Recent immigrant (< 5 years), frequent visitor to TB endemic areas
- Close contact to active TB case
- Frequent contact with adults at high-risk for disease, HIV+, homeless, incarcerated, illicit drug user
- HIV+ or have other medical conditions that increase the risk to progress from infection to disease, e.g., chronic renal failure, diabetes, hematologic or any other malignancy, weight loss > 10% of ideal body weight, on immunosuppressive medications

## Active TB Disease Risk:

- Does the child exhibit signs/symptoms of tuberculosis (e.g. cough for three weeks or longer, weight loss, loss of appetite)?
- If symptoms are present, work-up or refer for TB disease evaluation.

## Guide for Completing the School Entry Health Exam (DH 3040 Form)

DH 3040, 6/02, Stock Number: 5744-000-3040-2

## **General Information**

**Purpose:** The School Entry Health Exam has been designed to meet the requirements for the school entry health examination, as mandated by s.1003.22, F.S. (formerly s. 232.0315, F.S.) for student entry into Florida public and private schools, grades Pre-Kindergarten to 12. It provides basic health and screening information that will assist the school and school health personnel in meeting the needs of the child.

**Health Care Provider:** A health professional who is licensed in Florida or in the state where the student resided at the time of the health examination, and who is authorized to perform a general health examination under such licensure shall certify that the health examination has been completed.

**Time Limits:** The child's health examination must be completed within <u>one year prior to enrollment</u> in school. A homeless child shall be given a temporary exemption for 30 school days.

**Exemptions:** A child shall be exempt from this requirement upon written request from parent or guardian on religious grounds.

**Copies:** A copy of the front and back of the completed form may be retained in the child's medical file kept by the health care provider. The original completed DH 3040 Form should be given to the parent to take to the school to provide information and to document that this requirement is met.

### Directions for completing the School Entry Health Exam Form

**Page 1:** The health history is to be filled in by the parent or interviewer in the provider's office. If the parent seeks the exams recommended by the Partnership for School Readiness, the appropriate provider will fill in the information regarding the exam results.

- 1. Child Identifying Information: Fill in all of the information requested, including child's middle name and parent's complete names. This information is critical for distinguishing between children with the same or similar name.
- 2. PART I—CHILD'S MEDICAL HISTORY: The parent or interviewer in the provider's office should answer these questions before the exam. All questions answered "yes" should be explained in the space provided below.
- 3. Partnership for School Readiness Recommendations for Pre-kindergarten and Kindergarten: After the school entry health exam form has been completed, parents should be encouraged to seek the recommended vision examination from an optometrist or ophthalmologist and the dental examination from a dentist. The practitioner providing the school entry health exam may provide the hearing screening.

Page 2: This page is to be completed by the health care provider only.

- 1. Fill in the complete name and birth date of the child, as it appears on page 1.
- 2. PART II—MEDICAL EVALUATION: Provide the month, day and year of the entry exam.
- 3. Screening Results: Perform the indicated screenings and fill in the results of each of the indicated screenings, including vision and hearing information.
- 4. Exam Components: Indicate whether the results of the exam are normal or abnormal and any actions taken by the provider.
- 5. TB Risk Assessment: See guidelines on the bottom of the page for TB risk assessment. The screening and results should not be recorded on the school health form. If a test is given, arrangements should be made with the parent/guardian for follow up.
- 6. If the child has any physical or behavioral problem that may adversely affect the educational experience, check the appropriate box and explain the impairment or restrictions. Because the record will not be subject to the strict protection of medical records, providers are asked to refrain from including information of a confidential nature such as child abuse and HIV/AIDS.
- 7. Participation in Activities: Indicate whether the child has health or physical conditions that would prevent participation in normal school activities such as physical activities in recess, physical education or other physical activities during the school day.
- 8. Provider information: Fill out or stamp the form to provide information that identifies the provider and their address.
